Leghorne, November 12. *N. S.*

WE have Advice that 12 French Men of War are lately sailed from *Thoulon*; some of which are cruising about *Sardinia* and *Corsica*. The *Rooke* Galley, with 5 or 6 other Fish-ships, are daily expected here.

Venice, Novemb. 16. By a Vessel arrived here from the *Morea*, we have an Account, that the Ottoman Fleet is returned to *Constantinople*; and the Venetian Galleys to *Napoli di Romania*, and their Men of War to *Porto Spetia*: Some of the Ships that are most in want of Repairs, are shortly expected here, to be re-fitted against the next Summer. The Senate have resolved to augment both their Fleet and Army; and have therefore given out Commissions for new Levies to be made this Winter; and several Men of War and Galleys are building in the Arsenal here. They write from *Turkey*, that the Grand Signior was returned from the Campagne, to *Adrianople*; and after a short Stay in that City, would go on to *Constantinople*, where he intends to pass the Winter.

Milan, Novemb. 14. The Marquis *de Leganez*, our Governor, is returned hither from *Turin*. Most of the German Forces are marched out of the *Milaneze*: Those commanded by my Lord *Galway* are likewise on their March, and are to pass through the Territories of the Republick of *Venice*: Greatest part of the Spanish Troops, at present in this Country, will be sent to *Catalonia*; and a strong Re-inforcement is likewise designed thither from the Kingdom of *Naples*, for the Service of the next Campagne.

Turin, Novemb. 17. All the French Troops that were lately in these Parts, have re-passed the Mountains; part of them are to have their Winter-Quarters in *Provence*, and are, probably, designed against *Catalonia* the next Summer: For which reason, we hear, the Spaniards are likewise going to re-inforce their Army in that Country with the Troops of *Milan* and *Naples*. The French have strong Garisons in the Cittadels of *Pignerol*, *Nice* and *Susa*, and the Fortress of *Montmelian*; which Places they say they are to keep, till a general Peace is concluded: And we may very well believe, they will have as little Inclination to deliver them up then, as they have now: So that they command the Country round these Garisons, as much as they did before. The Inhabitants of *Pignerol* cannot obtain to have their Town secured with a Wall; and have been told by the Governor of the Cittadel, that they may spare themselves the trouble of making any Application for this purpose at the French Court; seeing if they do, he can assure them, it will not have the Success they desire.

Madrid, Novemb. 14. The King of *Spain*'s Illness continues, having a little, more or less, of the Fever Fit every day: Yesterday he was carried in a Sedan, to his Devotions in his Chapel: The intended Bull-Feast, and publick Rejoicings, are put off for the present. The Queen is perfectly well. The Dutchess of *Frias* is made *Camarera-Major* to Her Majesty, in the Place of the Dutchess of *Albuquerque*, lately deceased. Here is a Talk of Calling together the *Cortes*, or States of *Spain*. The Spanish Armada cruises still off Cape *St. Vincent*. They write from *Malaga*, that the *Aylmer* Frigat was arrived there in 13 days from *Leghorne*, and reported, that Captain *Fuller*, Commander of the *Panther*, had taken and carried into *Porto Longone* two French Ships, bound to *Marseilles*, from *Alexandria*: And that Captain *Pickering*, in the *Charles* Privateer, had taken another French Ship, worth 40000 Pieces of Eight.

Corunna, Novemb. 25. *N. S.* Yesterday arrived here the *Spanish-Alliance* Pacquet-Boat, in 7 days from *Falmouth*; the Master whereof gives an Account, that on the 11th and 12th of this month he saw near Cape *Ortugal* a Fleet of about 30 Sail, some of them very large Ships, and others Fly-boats, steering South-west.

Vienna, Novemb. 17. The Imperial Forces that are coming back from *Italy*, have Winter-Quarters assigned them in *Bohemia* and *Carinthia*; and the Emperor has resolved to employ the greatest part of them on the *Rhine* the next Campagne, and the rest in *Hungary*. The Letters from *Buda*, of the 12th Instant, say, Several Regiments of Horse and Foot, who served in the Imperial Army this last Summer, were come into the Neighbourhood of that City, where they separated, and marched to their respective Quarters. Some of the Enemy's Troops, belonging to the Garison of *Belgrade*, were, by our last Advices from *Peter-Waradin*, in Motion; and 'twas thought their Design might be against *Titul*: But that Place is too well provided, to apprehend the Consequence of any such Attempt, in case the Enemy should intend it. The States of *Transilvania* have not only setled the Winter-Quarters for the Imperial Forces in those Parts, but have resolved to furnish Provisions for their Subsistence during the Winter. Their Imperial Majesties, who have passed some Time at *Cloyster-Neubourg*, returned hither the 15th Instant, and are gone this day to *Eberstorf*: The Elector of *Saxony* has taken Leave of them, and intends to depart hence to morrow, for *Dresden*.

Francfort, Novemb. 25. The Hessien Troops are marching home, being to receive a Sum of Money of the States of the *Upper Rhine*, in lieu of Winter-Quarters; and the Count *de Lippe*, who commands them, is gone to *Cassell*. Part of the *Palatin* Forces march towards *Hailbron*; and the rest go home. Here will be a Meeting
